TONOPAH DAILY BONANZA

Today's Silver
Quotation, 58 1-2

VOL. XI. NO. 86

TONOPAH, NEVADA, SATURDAY EVENING, FEBRUARY 3, 1912

PRICE 10 CENTS.

YOUNG MAN ALTERS \$5 CHECK TO READ \$500

Presents Check at First National Bank and Received \$300 and Deposits \$200—Also Issues Check for Hotel Bill.

ORE SHIPMENTS FOR THE PAST WEEK

The ore shipments for the past week for the various producing mines in the Tonopah district are as follows:

| Mines | Tons |
|----------------|------|
| Tonopah Mining | 3100 |
| Belmont | 2800 |
| Montana | 1052 |
| Tonopah Ex. | 926 |
| West End | 775 |
| Midway | 50 |
| Total | 8703 |

The estimated value of all ores sent to the various mills is \$217,575.

SUBMARINE SINKS AND ELEVEN DIE

PORTSMOUTH, Eng., Feb. 3.—The British submarine "A-3" sank yesterday after a collision with the British gunboat Hazzard off the eastern end of the Isle of Wight. A cruiser is standing by.

The "A-3" carried a crew of 11 men whose fate is not definitely known. It is believed, however, that the vessel is full of water and that all are lost.

The commander-in-chief of the Portsmouth division of the British navy confirms the flooding of the submarine "A-3" and the drowning of the whole of her crew.

The submarine "A-3" which went out of harbor yesterday morning to carry out a series of diving and torpedo exercises, sank like a stone immediately after her collision with the Gunboat Hazzard.

A big escape of gas which was observed on the surface immediately after she sank indicated that the vessel quickly filled with water.

The submarine lies on the Princess shoal almost on the same spot where the submarine "A-1" was lost with all hands on March 18, 1904.

British submarines belonging to the "A" class have been singularly unfortunate. The "A-5" had six men killed and twelve injured by an explosion at Queenstown on February 15, 1905. The "A-8" sank off Plymouth on June 8, 1905, when 14 men out of her crew of 18 lost their lives. The "A-4" sank during the maneuvers at Portsmouth on November 16 of the same year but the whole of her crew were rescued with considerable difficulty. The "A-1" had seven of her crew badly injured by an explosion on August 6, 1910.

This class of boat is a single screw submersible of a modified Holland type with a length of 100 feet and beam of 12 feet 8 inches. Their displacement is 180 tons. They are driven by gasoline motors when on the surface of the water and by electric motors when submerged. They have a surface speed of 12 knots and a submerged speed of eight knots. The motors develop 500 indicated horsepower on the surface and 150 horsepower submerged. Their armament consists of two torpedo tubes.

FUNERAL FRANK ELIAS.

The funeral of the late Frank Elias, who died at the Miners' hospital Thursday morning of pneumonia, will be held tomorrow morning at 11 o'clock from the undertaking parlors of Woonacott & Hall. Interment in new city cemetery.

ITALIAN AIRSHIPS DROPPED BOMBS IN SPYING ON ARABS

TRIPOLI, Feb. 3.—While throwing bombs from an aeroplane into the Arab camp, Captain Monte of the Italian army was severely wounded by Arab rifle fire. Four bullets hit the machine. Monte and companion, however, made a safe return, bringing valuable information as to the Arab camp and equipment.

"THE USE OF DYNAMITE" TO BE SHOWN MONDAY

On Monday afternoon and evening the management of the Butler theater will be able to show, through the courtesy of Wesley Stewart, local agent of the Dupont Powder company, a two-reel subject containing 2000 feet, showing fifty-six scenes, entitled "The Use of Dynamite." This subject is a very interesting one and will show the following scenes: "Trap Shooting Contest Held at Columbus, Ohio," showing a squad of America's best professional and amateur trap shooters; "Dixon Winning the Championship with a Score of 99 Out of a Possible 100; Andrew Hill of Georgia Second with a Score of 98 Out of 100; Lester German Winner of the Double Target Shoot;" "Fred Gilbert, Record Breaker;" "C. Collins, Amateur Champion," and several "Lady Crack Shots." The interesting part of this subject is the many useful ways dynamite can be put to good use, as follows: Farming with dynamite, stump blasting, planting trees, ditching, felling trees and showing the productive fields after land has been cleared. This subject will be shown in addition to the regular show of four reels. Two shows both afternoon and evening, and the regular price of admission will prevail.

SIGN FOR TEN ROUNDS.

CHICAGO, Feb. 3.—Packer McFarland and Eddie Murphy have signed articles for a ten-round fight at South Bend, Ind., February 14.

DEMOCRATS GET BUSY AGAINST A THIRD TERM

WASHINGTON, D. C., Feb. 3.—The "third term" question came up in the house when Slayden, democrat, of Texas, proposed a resolution declaring it to be the sense of the house that any departure from the custom of two terms would "be unwise, unpatriotic and fraught with peril to free institutions." A similar resolution was passed in the house in 1874, when Grant was talked of for a third term.

Slayden also announced that he had prepared another resolution for a constitutional amendment, providing that the president may only serve one term.

GRAIN CROP TO BE A LARGE ONE NEXT SPRING

INDICATIONS ARE THAT THERE WILL BE 60,000,000 BUSHELS IN ELEVATORS.

DULUTH, Minn., Feb. 3.—Present prospects are that there will be 60,000,000 bushels of grain in the Duluth and Superior and Port Arthur and Fort Williams elevators at the opening of navigation next spring, counting the amount in vessel storage at the latter points. This is said to be unprecedented.

Winnipeg estimates that the volume of Canadian grain of the lakes next spring will range from 10 to 50 million bushels. It would seem, Winnipeg says, that the wheat region of Western Canada is being developed more rapidly than are the facilities for storing and shipping. Elevator construction in Canada promises to be large during the year.

After Securing the Money the Youth, Accompanied by His More Youthful Wife, Hired Auto and Started for Goldfield Hoping to Catch a Los Angeles Train—Were Met Four Miles From Goldfield By Esmeralda Sheriff—Brought Back to This City.

This morning about 10:30 o'clock a young man, not over 20 years of age, in appearance, entered the First National bank of this city and presented a certified check of the amount of \$500 for deposit, drawing \$300 in cash and placing the balance of \$200 on deposit.

The original certified check was for "five" dollars and was certified to by Cashier N. E. Hill of the John S. Cook Banking company of Goldfield. The work of raising the amount from "five" to "five hundred" was done in most excellent manner, and could not be detected by the naked eye, a strong magnifying glass being required to see the former erasures. Any cashier would have cashed the check, seeing the signature of Mr. Hill's was correct, which it was.

The forgery was the work of D. B. Black, a young man hardly past his teens, who arrived here three days ago from Goldfield, accompanied by a girl, who does not look a day over 16 years. The youthful couple registered at the Mizpah hotel as "D. B. Black and wife, Los Angeles." During their short visit here they were to be seen together walking about the city or lounging in the hotel lobby. They seldom conversed with any person. Nobody knew or seemed to care where the pair hailed from, what they intended to do or when they were going. During their short stay here the young man paid for their meals and any little nic-nacks they desired.

After securing the \$300 the youthful check-raiser went to the hotel, wrote a check of \$7.50 on the Tonopah First National bank, in payment of room rent, and then hired Chauffeur Gilbert to take himself and wife to Goldfield, they intending to catch the Las Vegas & Tonopah train for Los Angeles or Salt Lake, and started for Goldfield. Shortly afterwards Mr. R. T. Harris of the bank began a minute examination of the check cashed, and by applying the magnifying glass detected the forgery or raising of the check. He at once wired to the Goldfield sheriff to arrest Black, which was accomplished about four miles this side of Goldfield. The Goldfield officers starting out in an auto to intercept the check-raiser and which resulted in the arrest as above stated.

"Shorty" Kutzkau, driving his auto, with Deputy Chief of Police Walker and Deputy Sheriff Slavin, made a record run to Goldfield, chasing the fugitives, who had 20 minutes the start. And they would have arrested them before they reached the gold camp had not a puncture delayed them. Black and wife were taken to the sheriff's office in Goldfield and both refused to talk, saying it was not wise to do so, as they were under arrest. The Tonopah officers shortly afterwards left with their prisoners for Tonopah and both are now inmates of the county jail.

Yesterday afternoon Black presented the check at the Tonopah Banking Corporation asking that the same be paid in cash. This was refused until they could call up Cashier Hill of the John S. Cook bank. To this Black replied that there was no necessity of doing that, as he would return to Goldfield today, and the matter was then dropped.

After being locked up this afternoon the pair was asked by a Bonanza reporter if they wish to make a statement and they replied they did not.

COLLARBONE DISLOCATED.

This morning while handling a telegraph pole, "Brick" Pomeroy slipped and fell, dislocating his collarbone. The fracture was quickly reduced and the injured man will again soon be at his work.

GREATLY INCREASING AREA OF MINERAL ZONE

Has it ever occurred to the average reader to what magnitude the ore-producing area of Tonopah has grown in the past few months? If he has any doubt of its extent he should take his rule and go over one of the official maps of the district and measure from one extreme to the other—north to south, and east to west—where pay ore is now being developed; then take a pencil in hand and do a little figuring, and he will find that that area is now over 8000 feet long and nearly 5000 feet wide, approximately 1000 acres of proven territory. And, from the indications as they exist at present, it is more than probable that in length (easterly and westerly) the ore deposits are going to continue along almost indefinitely. For in the farthest eastern workings of the wonderful Belmont, up to the end lines of that company's ground, great veins are trending their way into the Mizpah Extension and Halifax and probably into other properties lying to the east and southeast, while in the western section of the district, the vein systems have long since been found to have passed through the claims originally comprising the groups owned by the West End Consolidated and Tonopah Extension and have entered into ground more recently acquired by those companies. And now, from the developments being made, it is considerably more than a likelihood that the chain will proceed unbroken into the adjoining properties on the west, the Tonopah "70," the Monarch Pittsburg, and possibly others. In the ten or more years that Tonopah has been on the map, it has produced upwards of \$40,000,000 in gold and silver, but with the demonstration in almost every instance that the ledges are going down to unknown depths in the working mines, and with the absolute certainty that with every day's developments the ore bodies are found making rapid strides both to the east and west and also to the north and south, can anyone foretell what the production of the next decade will be or how far the mineral belt will extend? Great is Tonopah, the banner gold-silver camp of the west, but if the cards read aright, it is destined to become still greater.

INVESTIGATING M'NAMARA FUND OF \$225,000

INDIANAPOLIS, Ind., Feb. 3.—Frank Morrison, secretary of the American Federation of Labor, was before the federal grand jury almost continuously yesterday testifying in the investigation of the dynamite conspiracy as to the disposal of \$225,000 of the McNamara defense fund. He had said he was ready to explain disbursements in detail in the hope that the federation's books might be promptly taken to Washington, but District Attorney Miller declared the government would keep the accounts several days to prepare data for future use.

More than 4000 entries of receipts of contributions, with a much smaller number of expenditures, are shown by the books, according to Mr. Morrison.

"Expenditures include \$170,000 paid through Attorney Darrow as reported to the union officials some time ago," said Mr. Morrison. "The amount was correct at that time, though Mr. Darrow received other payments since."

The examination of the federation's finances was confined entirely to handling the defense fund, and no inquiry was made into the organization's affairs prior to the arrest of J. J. McNamara.

That thirty indictments or more, growing out of the dynamite conspiracy, have been drawn up and possibly will be voted by the federal grand jury next Tuesday, is admitted by United States Attorney Miller.

TEETH FIT THE MARKS ON THE DYNAMITE CAPS

LOS ANGELES, Feb. 3.—The trial of Bert H. Connors, is in the hands of the jury. A dramatic scene closing the argument of Assistant District Attorney Horton. When the latter declared Connors' teeth marks on dynamite caps had been found in the Hall of Records alley. He said Connors had followed a coal miner's custom of clinching the cap to the fuse by means of his teeth and dare him to open his mouth. When the latter opened his mouth slightly, Horton forced the defendant's mouth open as he would a horse, and compelled him to parade before the jury, so all could see. The imprint on the caps correspond with the wide set teeth of the prisoner. The prosecutor's course was a veritable bombshell to the defense.

AMERICAN MONEY TO AID A KING

PRINCE OF BRAGANZA LOANS KING MANUEL TWENTY MILLIONS.

PARIS, Feb. 3.—The "Radical," says Prince Miguel of Braganza loaned King Manuel a large sum of money obtained from his wife, who was Anita Stewart of New York, stepdaughter of the late John Henry Smith. The paper fixes the amount of the loan at \$20,000,000. The money is to be used helping Manuel to regain the throne.

FIVE YEARS IN SAN QUENTIN FOR EMBEZZLING BANK FUNDS

SAN FRANCISCO, Feb. 3.—Gen. A. Terry of the International Banking corporation, for stealing \$12,000, was sentenced to five years in San Quentin, but was granted probation because of his health.

HIGH TIDES ARE DOING DAMAGE

SANTA MONICA, Feb. 3.—The highest tides of the season wrought thousands of dollars' worth of damage yesterday around the bay. At El Segundo, a hundred feet of the new Rockefeller pier was broken off, carrying with it pile drivers and other expensive machine. A fifty-foot pier at Venice was carried away. At Manhattan a pleasure pier was wrecked. Wall's auditorium at Playa del Rey was seriously damaged, and the foundation of many buildings were undermined.

MEXICAN REBELS STORM A PRISON

CHIHUAHUA, Mexico, Feb. 3.—A mob of about 150 men assaulted the penitentiary here at 6 o'clock yesterday morning. They were repulsed after two hours' hard fighting by the guards under Captain Salgado, who were reinforced by troops from the local garrison. It is known that three rural guards, including Captain Silvario Orozco, a cousin of general Pasqual Orozco, were killed.

It is reported that nearly 400 men were mobilizing in the vicinity of the town, declaring that they will cut the water supply. The attacking mob is reported to have been composed of discharged rural guards. A detachment of 100 rural guards is protecting the state palace.

Fighting went on until 10 o'clock, when General Orozco, who took charge of the defenders early in the fight, ordered his men to cease firing as the rebels had then retreated to a distance which made the firing ineffective.

To the list of dead is now added Captain Gutierrez and a sergeant belonging to the defending force. The rebel losses are unknown.

For the purpose of distinguishing the defenders from the men of the attacking force the former wore white bands on their arms. This measure was adopted as a result of confusion early in the fight.

The passenger service on the Mexican Northwestern railway has been abandoned on account of the reported destruction of the attack at Casa Blanca, 125 miles from this city.

Penitentiary Attacked.

MEXICO CITY, Feb. 3.—An attack was made on the penitentiary at Chihuahua for the purpose of liberating Antonio Rojas, who surrendered with his followers at Moris, in the southern part of the state, where he and his followers had revolted while stationed at the Dolores mines.

According to reports received by the interior department, an attempt was also made to release Juan Alatorre.

Antonio Rojas a few weeks ago led a band of insurrectionists in Eflavor of the Emilio Vasquez Gomez contingent.

The mob was led by Captain Mendoza, who formerly was a captain of the rural guard, but lately was discharged from the service by General Orozco.

At half past eleven yesterday morning no official advice as to the result of the fight has been received.

FEARS LAWYERS MORE THAN PRISON SAYS CHINK LADY

SPOKANE, Feb. 3.—Oi Sen, the Chinese woman arrested at Billings, Mont., for the murder of Said Bing at Portland, whose body was found in a trunk, passed through in charge of detectives. The only statement in connection with the murder was: "Well, I suppose I'll get 15 years for this, but I don't care, so long as no lawyer gets my jewelry."
